TABLES

3-1. All sites under OU 10-04, with sites assessed in the RI/FS highlighted.....	3-7
3-2. Site descriptions and dispositions for OU 10-06.....	3-27
4-1. BRA human health assessment uncertainty factors	4-7
4-2. Summary of WAG 6 and 10 exposure media and ingestion routes for selected INEEL species.....	4-17
4-3. Sources and effects of uncertainties in the ecological risk assessment.....	4-19
6-1. List of WAG 6 facilities in the facility assessment	6-4
7-1. Soil contaminant screening process for WAG 6, OU 6-01, BORAX-02 (BORAX-I Burial Ground) (1996 Postremediation).....	7-6
7-2. Summary Exposure Point Concentrations for BORAX-02 (concentration units are mg/kg or pCi/g; bin depths are in feet)	7-7
7-3. Summary of ERA HQs for BORAX-02.....	7-7
7-4. Soil contaminant screening process for OU 10-04, BORAX-01 (Leach Pond).....	7-11
7-5. Summary Exposure Point Concentrations for BORAX-01 (concentration units are mg/kg or pCi/g; bin depths are in feet)	7-12
7-6. Summary of ERA HQs for BORAX-01	7-13
7-7. Soil contaminant screening process for OU 10-04, BORAX-08-Ditch	7-17
7-8. Soil contaminant screening process for OU 10-04, BORAX-09 (Reactor Bldg.-Post D&D).....	7-22
7-9. Summary Exposure Point Concentrations for BORAX-09 (concentration units are mg/kg or pCi/g; bin depths are in feet)	7-23
7-10. Summary of ERA HQs for BORAX-09.....	7-24
8-1. Groundwater monitoring results for wells near EBR-I	8-7
8-2. Soil contaminant screening process for OU 10-04, WMO-703, EBR-08 Soil.....	8-11
8-3. Soil contaminant screening process for OU 10-04, WMO-704, EBR-09 soil	8-11
8-4. Soil contaminant screening process for OU 10-04, EBR-10 (WMO-705).	8-12

8-5. Soil contaminant screening process for OU 10-04, EBR-11 (EBR-706).....	8-12
8-6. Soil contaminant screening process for OU 10-04, EBR-12 (EBR-707).....	8-13
8-7. Summary Exposure Point Concentrations for EBR Sites (concentration units are mg/kg or pCi/g; bin depths are in feet.)	8-14
9-1. EBR-15 Verification Sample Results.....	9-4
10-1. Soil Contaminant Screening Process for Operable Unit (OU) 10-04, LCCDA-01 (1988, 1993, 1997).....	10-7
10-2. Soil Contaminant Screening Process for Operable Unit (OU) 10-04, LCCDA-02 (1988, 1997).....	10-8
10-3. Summary Exposure Point Concentrations for LCCDA-01 and LCCDA-02 (concentration units are mg/kg or pCi/g; bin depths are in feet)	10-9
10-4. Summary of ERA HQs for LCCDA-01	10-10
10-5. Summary of ERA HQs for LCCDA-02	10-11
11-1. Soil contaminant screening process for OU 10-02, OMRE-01 soils (1997, 1999, 2000) — nonradionuclides.....	11-8
11-2. Soil contaminant screening process for OU 10-02, OMRE-01 soils (1997, 1999) —radionuclides only.....	11-8
11-3. Corrected Ra-226 concentrations	11-9
11-4. Summary exposure point concentrations for OMRE-01 soils. (EPC units are mg/kg or pCi/g; Bin depths are in feet).....	11-10
11-5. Samples at OMRE with Cs-137 over 23.3 pCi/g.	11-11
11-6. Cs-137 concentrations in certain samples taken at Hot Spot # 1 location.....	11-11
11-7. Cs-137 concentrations in certain samples taken at Biased 3 location.....	11-12
11-8. Cs-137 concentrations in certain samples taken downgrade of the ditch at OMRE.	11-12
11-9. Total Risks by Exposure Pathway at each site/area (Residential).....	11-14
12-1. Ordnance areas identified in the OU 10-04 Work plan (DOE-ID 1999a).....	12-5
12-2. Soil contaminant screening process for OU 10-04, CFA-633 (1993, 1994)	12-16
12-3. CFA-633 Exposure Point Concentration Calculations by Bin Depths.....	12-16
12-4. Human health carcinogenic risk and noncarcinogenic hazard index summary for CFA-633.....	12-17
12-5. Summary of ERA HQs for CFA-633	12-17

12-6. Soil contaminant screening process for Experimental Field Station.....	12-20
12-7. Experimental Field Station Exposure Point Concentrations by Bin Depths	12-21
12-8. Human health carcinogenic risk and noncarcinogenic hazard index summary for Experimental Field Station.....	12-22
12-9. Summary of ERA HQs for the Experimental Field Station	12-23
12-10. Soil contaminant screening process for WAG 10, OU 10-03, Burn Area South of Experimental Field Station (1999).....	12-28
12-11. Burn Ring Exposure Point Concentration Calculations by Bin Depths	12-29
12-12. Summary of ERA HQs for Burn Ring South of Experimental Field Station.....	12-30
12-13. Soil contaminant screening process for OU 10-04, Land Mine and Fuze Burn Area (1999)	12-33
12-14. Land Mine and Fuze Burn Area Exposure Point Concentration Calculations by Bin Depths.....	12-34
12-15. Human health carcinogenic risk and noncarcinogenic hazard index summary for the Land Mine and Fuze Burn Area	12-35
12-16 Summary of ERA HQs for the Land Mine and Fuze Burn Area 2	12-36
12-17. Summary of ERA HQs for the Land Mine and Fuze Burn Area 3	12-36
12-18. Soil contaminant screening process for OU 10-04, NOAA Soils (1999).....	12-41
12-19. Human health carcinogenic risk and noncarcinogenic hazard index summary for NOAA Grid	12-43
12-20. Summary of ERA HQs for NOAA Grid Area 1.....	12-44
12-21. Summary of ERA HQs for NOAA Grid Area 2.....	12-45
12-22. Summary of ERA HQs for NOAA Grid Area 2a.....	12-46
12-23. Summary of ERA HQs for NOAA Grid Area 3.....	12-47
12-24. Summary of ERA HQs for NOAA Grid Area 4.....	12-48
12-25. Summary of ERA HQs for NOAA Grid Area 5.....	12-48
12-26. Summary of ERA HQs for NOAA Grid Area 6.....	12-49
12-27. Soil contaminant screening process for OU 10-04, Fire Station (1999)	12-53
12-28. Fire Station II Zone and Range Fire Burn Area Exposure Point Concentrations by Bin Depths.....	12-55

12-29. Human health carcinogenic risk and noncarcinogenic hazard index summary for Fire Station II Zone and Range Fire Burn Area	12-56
12-30. Summary of ERA HQs for the Fires Station II Zone and Range Fire Burn Area 1	12-57
12-31. Summary of ERA HQs for the Fires Station II Zone and Range Fire Burn Area 2	12-58
12-32. Summary of ERA HQs for the Fires Station II Zone and Range Fire Burn Area 3	12-59
12-33. Summary of ERA HQs for the Fires Station II Zone and Range Fire Burn Area 4	12-60
12-34. Soil contaminant screening process for OU 10-04, Mass Detonation Area soils (1997, 1999).....	12-63
12-36. Soil contaminant screening process for OU 10-04, UXO east of TRA soil	12-64
12-36. Summary of ERA HQs for the Unexploded Ordnance East of TRA	12-67
12-37. Soil contaminant screening process for OU 10-04, Railcar Soils (1999).....	12-70
12-39. Summary of ERA HQs for the Rail Car Explosion Area 2	12-71
12-40. Summary of ERA HQs for the Rail Car Explosion Area 3	12-72
12-41. Summary of ERA HQs for the Rail Car Explosion Area 5	12-74
12-42. Summary of ERA HQs for the Rail Car Explosion Area 6	12-74
12-43. Summary of ERA HQs for the Craters East of INTEC	12-76
12-44. Soil contaminant screening process for OU 10-04, Crater East of INTEC Soils.....	12-79
12-45. Soil contaminant screening process for OU 10-04, NODA Soils (1997, 1999, 2000)	12-82
12-46. Human health carcinogenic risk and noncarcinogenic hazard index summary for NODA.....	12-88
12-47. Summary of ERA HQs for NODA Area 2	12-89
12-48. Summary of ERA HQs for NODA Area 3	12-93
12-49. Summary of ERA HQs for NODA Area 4	12-95
12-50. Summary index of cumulative human health carcinogenic risks and noncarcinogenic hazards for all retained sites or areas	12-97
12-51. Summary of all retained COPCs and sites in the ERA	12-98
15-1. Soil Contaminant Screening Process for the Fly Ash Pit (2000)	15-4

15-2. Summary Exposure Point Concentrations for the Fly Ash Pit (concentration units are mg/kg; bin depths are in feet).....	15-5
15-3. Summary of ERA HQs for the Fly Ash Pit.....	15-5
17-1. Reduced WAG 1 sites and contaminants evaluated in the OU 10-04 ERA.....	17-8
17-2. Reduced list of WAG 2 sites and contaminants evaluated in the OU 10-04 ERA.....	17-10
17-3. Reduced list of WAG 3 sites and contaminants evaluated in the OU 10-04 ERA.....	17-13
17-4. Reduced list of WAG 4 sites and contaminants evaluated in the OU 10-04 ERA.....	17-16
17-5. Reduced list of WAG 5 sites and contaminants evaluated in the OU 10-04 ERA.....	17-19
17-6. Reduced list of WAG 6 and 10 sites and contaminants evaluated in the OU 10-04 ERA.....	17-21
17-7. Reduced list of WAG 9 sites and contaminants evaluated in the OU 10-04 ERA.....	17-23
17-8. OU 10-04 COPCs summarized from the WAG ERAs (Appendix H2).	17-28
17-9. Comparison of INEEL breeding-bird populations to the State of Idaho and the United States.....	17-34
17-10. Individual receptors and associated functional groups.....	17-37
17-11. Threatened or endangered species, sensitive species, and species of concern that may be found at the INEEL. ^a	17-38
17-12. Analysis of INEEL vegetation classes (habitat types) potentially impacted by WAG activities.....	17-49
17-13. Summary of vegetation classes associated with location/telemetry data for receptors of interest.	17-50
17-14. Summary of potential exposures from OU 10-04 COPCs to pygmy rabbits where HQs exceeded 10.	17-54
17-15. Summary of potential exposures from OU 10-04 COPCs to mammalian insectivores (including Townsend's big-eared bat, long-eared myotis, small-footed myotis) where HQs exceeded 10.	17-55
17-16. Summary of potential exposures from OU 10-04 COPCs to avian herbivores (including the mourning dove) where HQs exceeded 10.	17-56

17-17. Summary of potential exposures from OU 10-04 COPCs to avian omnivores (including the magpie) where HQs exceeded 10.....	17-57
17-18. Summary of potential exposures from OU 10-04 COPCs to avian insectivores (including the sage sparrow) where HQs exceeded 10.	17-58
17-19. Summary of potential exposures to INEEL plant communities from OU 10-04 COPCs where HQs exceeded 10.....	17-59
17-20. Summary of potential exposures from OU 10-04 COPCs to mammalian carnivores (including the coyote) where HQs exceeded 10.....	17-60
17-21. Summary of potential exposures from OU 10-04 COPCs to mammalian omnivores (including the deer mouse) where HQs exceeded 10.	17-61
17-22. Summary of potential exposures from OU 10-04 COPCs to mammalian herbivores (including the mule deer) where HQs exceeded 10.....	17-62
17-23. Summary of potential exposures from OU 10-04 COPCs to avian carnivores (including the ferruginous hawk, peregrine falcon and bald eagle) where HQs exceeded 10.....	17-63
17-24. Summary of potential exposures from OU 10-04 COPCs to avian carnivores (including the loggerhead shrike and burrowing owl) where HQs exceeded 10.	17-64
17-25. Evaluation of site-specific bioaccumulation factors (BAFs) relative to literature-derived BAFs.	17-65
17-26. Ecological Receptors Associated with Assessment Endpoints and Risk Assessment Conclusions.	17-68
17-27. Receptors of concern and associated functional groups with HQs exceeding 10 for OU 10-04 COPCs.	17-80
17-28. Evaluation of HQs for COPCs and WAGs for functional group and associated receptors.....	17-83
17-29. Lines-of-evidence evaluation for the OU 10-04 ERA.....	17-85
18-1. Final decisions and recommendations for all WAG 6 release sites	18-2
18-2. Final decisions and recommendations for all WAG 10 release sites/areas	18-3
18-3. Total risks by exposure pathway and group (future residential scenario).....	18-5
18-4. Total hazard quotients by area (future residential scenario)	18-6
18-5. Total risks by exposure pathway and group (future worker scenario)	18-7
18-6. Total hazard quotients by exposure pathway and group (future worker scenario)	18-8
18-7. Total risks by exposure pathway and group (current worker scenario)	18-9

18-8. Total hazard quotients by exposure pathway and group (current worker scenario).....	18-10
18-9. Summary of sites retained for ecological risk assessment	18-13
19-1. Sites retained for the feasibility study based on potential future residential human health risks greater than or equal to 1E-04 or a hazard index greater than 1.	19-2
19-2. Sites retained for the feasibility study based on potential ecological risks.	19-7
19-3. Summary of sites addressed in the feasibility study.....	19-7
19-4. Areas and volumes of contaminated media for WAG 10 TNT/RDX soil sites and STF-02 Gun Range.	19-11
19-5. Preliminary remediation goals.	19-12
19-6. Screening of remedial technologies.	19-15
20-1. Remedial alternatives for TNT/RDX contaminated soil sites.....	20-2
20-2. Remedial alternatives for STF-02 Gun Range lead contaminated soils.....	20-5
20-3. Remedial alternatives for UXO Areas	20-9
21-1. Base cost, escalated cost, and discounted cost (net present value) of capital, operating and maintenance, and total costs for remedial alternatives at WAG 10 TNT/RDX contaminated soil sites.	21-3
21-2. Base cost, escalated cost, and discounted cost (net present value) of capital, operating and maintenance, and total costs for remedial alternatives at WAG 10 STF-02 Gun Range Site.	21-11
21-3. Base cost, discounted cost, and escalated cost (net present value) of capital, operating and maintenance, and total costs for remedial alternatives for WAG 10 UXO areas.....	21-16
22-1. Evaluation of compliance with ARARs and TBCs for WAG 10 TNT/RDX contaminated soil sites, Alternative 1: No Action.	22-5
22-2. Evaluation of compliance with ARARs and TBCs for WAG 10 TNT/RDX contaminated soil sites: Alternative 3a, removal, treatment of TNT/RDX fragments, and disposal of soil on the INEEL, and Alternative 3b, removal, treatment of TNT/RDX fragments, and disposal of soil off the INEEL.....	22-7
22-3. Evaluation of compliance with ARARs and TBCs for WAG 10 TNT/RDX contaminated soil sites Alternative 4a: Removal, Off-Site Incineration and Disposal; and Alternative 4b: Removal, Ex Situ Composting, and Disposition on the INEEL.....	22-10
22-4. Evaluation of compliance with ARARs and TBCs for the STF-02 Gun Range, Alternative 1: No Action.	22-12

22-5.	Evaluation of ARARs and TBCs—for STF-02 Gun Range Alternatives 3a and 3b: Removal, Ex Situ Treatment, and Disposition.....	22-14
22-6.	Evaluation of compliance with ARARs and TBCs for WAG 10 UXO Areas, Alternative 1: No Action	22-15
22-7.	Evaluation of compliance with ARARs and TBCs for the WAG 10 UXO Areas, Alternative 2: Limited Action.....	22-17
22-8.	Evaluation of compliance with ARARs and TBCs for the WAG 10 UXO Areas: Alternative 3, Survey and Removal.....	22-18
22-9.	Comparison of alternatives for TNT/RDX contaminated soils with remedial action objectives	22-21
22-10.	Comparison of alternatives for the STF-02 Gun Range with remedial action objectives.....	22-22
22-11.	Comparison of alternatives for the WAG 10 UXO Areas with remedial action objectives.....	22-22
22-12.	Detailed analysis summary for WAG 10 TNT/RDX contaminated soil sites.....	22-23
22-13.	Detailed analysis summary for the STF-02 Gun Range.....	22-28
22-14.	Detailed analysis summary for the UXO Areas.....	22-31
22-15.	Comparative ranking of remedial alternatives relative to the CERCLA evaluation criteria	22-34
B-1.	Threatened or endangered species, sensitive species, and species of concern that may be found on the INEEL	B-48

C3-b.	Summary Statistics for the BORAX-01 Soils (Leach Pond).....	C-15

C3-c. Summary Exposure Point Concentrations for BORAX-01 by Bin Depths	C-26
C4-a. Soil Contaminant Screening Process for OU 10-04, BORAX-08- New Ditch (1990, 1993, 1994)	C-27
C4-b. Summary Statistics for the BORAX-08 Soils	C-28
C4-c. Summary Exposure Point Concentrations for BORAX-08 by Bin Depths	C-28
C5-a. Soil Contaminant Screening Process for OU 10-04, BORAX-09 (Reactor Bldg. Post-D&D)	C-29
C5-b. Summary Statistics for the BORAX-09 Soils	C-31
C5-c. Summary Exposure Point Concentrations for BORAX-09 by Bin Depths	C-33
C6-a. Soil Contaminant Screening Process for BORAX Ecological Sampling (2000) Metals and Inorganics	C-34
C6-b. Soil Contaminant Screening Process for BORAX-02 Ecological Sampling (2000) Radionuclides Only	C-35
C6-c. Summary Statistics for the BORAX Ecological Sampling—Deer Mice (2000)	C-36
C6-e. Summary Statistics for the BORAX Ecological Sampling—Cottontail Rabbit (2000).....	C-38
C6-f. Summary Statistics for the BORAX Ecological Sampling—Sagebrush (2000).....	C-39
C6-g. Summary Statistics for the BORAX Ecological Sampling—Subsurface Soils (2000)	C-40
C6-h. Summary Statistics for the BORAX Ecological Sampling—Surface Soils (2000).....	C-41
C6-i. Summary Statistics for the BORAX Ecological Sampling—Deer Mice (Radionuclides) (2000)	C-42
C6-j. Summary Statistics for the BORAX Ecological Sampling—Kangaroo Rat (Radionuclides) (2000).....	C-43
C6-k. Summary Statistics for the BORAX Ecological Sampling—Cottontail Rabbit (Radionuclides) (2000).....	C-44
C6-l. Summary Statistics for the BORAX Ecological Sampling—Sagebrush (Radionuclides) (2000).....	C-45
C6-m. Summary Statistics for the BORAX Ecological Sampling—Subsurface Soil (Radionuclides) (2000).....	C-46
C6-n. Summary Statistics for the BORAX Ecological Sampling—Surface Soil (Radionuclides) (2000).....	C-47
C6-o. Summary Exposure Point Concentrations for BORAX-02 Ecological Sampling (2000) by Bin Depths	C-48

C6-p. Summary Exposure Point Concentrations for BORAX-02 Ecological Sampling (2000) (radionuclides only) by Bin Depths.....	C-48
C7-a. Soil Contaminant Screening Process for OU 10-04, WMO-703, EBR-08 Soil (1990)	C-49
C7-b. Summary Statistics for the EBR-08 Soils.....	C-50
C7-c. Summary Exposure Point Concentrations for EBR-08 by Bin Depths.....	C-50
C8-a. Soil Contaminant Screening Process for OU 10-04, WMO-704 EBR-09 Soil (1992).....	C-51
C8-b. Summary statistics for the EBR-09 Soils	C-52
C8-c. Summary Exposure Point Concentrations for EBR-09 by Bin Depths.....	C-52
C9-a. Soil Contaminant Screening Process for OU 10-04, EBR-10 (WMO-705) (1990).....	C-53
C9-b. Summary Statistics for the EBR-10 Soils.....	C-54
C9-c. Summary Exposure Point Concentrations for EBR-10 by Bin Depths.....	C-54
C10-a. Soil Contaminant Screening Process for OU 10-04, EBR-11 (EBR-706).....	C-55
C10-b. Summary Statistics for the EBR-11 Soils.....	C-56
C10-c. Summary Exposure Point Concentrations for EBR-11 by Bin Depths.....	C-56
C11-a. Soil Contaminant Screening Process for OU 10-04, EBR-12 (EBR-707) (1990)	C-57
C11-b. Summary Statistics for the EBR-12 Soils.....	C-58
C11-c. Summary Exposure Point Concentrations for EBR-12 by Bin Depths.....	C-58
C12-a. Soil Contaminant Screening Process for OU 10-04, EBR-15, Radionuclide Contaminated Soils (1988, 1989, 1993,1994,1995).....	C-59
C12-b. Summary Statistics for the EBR-15 Soils.....	C-61
C12-c. Summary Exposure Point Concentrations for EBR-15 by Bin Depths.....	C-63
C13-a. Soil Contaminant Screening Process for the Fly Ash Pit (2000)	C-64
C13-b. Summary Statistics for the Fly Ash Pit Soils.....	C-66
C13-c. Summary Exposure Point Concentrations for the Fly Ash Pit by Bin Depths.....	C-67
C14-a. Soil Contaminant Screening Process for OU 10-04, LCCDA-01 (1988, 1993, 1997)	C-68
C14-b. Summary Statistics for the LCCDA-01 Soils	C-70
C14-c. Summary Exposure Point Concentrations for LCCDA-01 by Bin Depths.....	C-75

C15-a. Soil Contaminant Screening Process for OU 10-04, LCCDA-02 (1988, 1997)	C-76
C15-b. Summary Statistics for the LCCDA-02 Soils.....	C-78
C15-c. Summary Exposure Point Concentrations for LCCDA-02 by Bin Depths.....	C-80
C16-a. Soil Contaminant Screening Process for OU 10-02, OMRE-01 Soils (1997, 1999, 2000)	C-81
C16-b. Soil Contaminant Screening Process for OU 10-02, OMRE-01 Soils (1997, 1999) Radionuclides Only	C-84
C16-c. Summary Statistics for the OMRE Soils—Metals and Organics Only.....	C-85
C16-d. Summary Statistics for the OMRE Soils—Radionuclides Only.....	C-94
C16-e. Summary Exposure Point Concentrations for OMRE by Bin Depths	C-95
C16-f. Summary Exposure Point Concentrations for OMRE (radionuclides only) by Bin Depths.....	C-95
C17-a. Screened Chemicals CFA-633	C-96
C17-b. Summary Statistics for the CFA-633 IA Post Soils.....	C-97
C17-c. CFA-633 Exposure Point Concentration Calculations by Bin Depths	C-97
C18-a. Screened Chemicals Experimental Field Station	C-98
C18-b. Summary Statistics for the Experimental Field Station Soils-Area #1.....	C-100
C18-c. Summary Statistics for the Experimental Field Station Soils-Area #2.....	C-101
C18-d. Experimental Field Station Exposure Point Concentrations Area #1 by Bin Depths.....	C-102
C18-e. Experimental Field Station Exposure Point Concentrations Area #2 by Bin Depths	C-102
C19-a. Screened Chemicals Burn Ring	C-103
C19-b. Summary Statistics for the Burn Ring Soils	C-105
C19-c. Burn Ring Exposure Point Concentration Calculations by Bin Depths.....	C-115
C20-a. Screened Chemicals Land Mine and Fuze Burn Area	C-116
C20-b. Summary Statistics for the Land Mine and Fuze Burn-Area #2.....	C-121
C20-c. Summary Statistics for the Land Mine and Fuze Burn Area #3	C-123
C20-d. Land Mine and Fuze Burn Area Exposure Point Concentration Calculations Area #2 by Bin Depths	C-132

C20-e. Land Mine and Fuze Burn Area Exposure Point Concentration Calculations Area #3 by Bin Depths.....	C-132
C21-a. Screened Chemicals NOAA	C-133
C21-b. Summary Statistics for the NOAA Soils-Area #1	C-137
C21-c. Summary Statistics for the NOAA Soils-Area #2	C-138
C21-d. Summary Statistics for the NOAA Soils-Area #2a	C-139
C21-e. Summary Statistics for the NOAA Soils-Area #3	C-140
C21-f. Summary Statistics for the NOAA Soils-Area #4.....	C-141
C21-g. Summary Statistics for the NOAA Soils-Area #5	C-142
C21-h. Summary Statistics for the NOAA Soils-Area #6	C-143
C21-i. NOAA Exposure Point Concentration Calculations Area #1 by Bin Depths.....	C-145
C21-j. NOAA Exposure Point Concentration Calculations Area #2 by Bin Depths.....	C-145
C21-k. NOAA Exposure Point Concentration Calculations Area #2a by Bin Depths	C-146
C21-l. NOAA Exposure Point Concentration Calculations Area #3 by Bin Depths.....	C-146
C21-m. NOAA Exposure Point Concentration Calculations Area #4 by Bin Depths.....	C-147
C21-n. NOAA Exposure Point Concentration Calculations Area #5 by Bin Depths.....	C-147
C21-o. NOAA Exposure Point Concentration Calculations Area #6 by Bin Depths	C-148
C22-a. Screened Chemicals Fire Station II Zone and Range Fire Burn Area	C-149
C22-b. Summary Statistics for the Fire Station II Zone and Range Fire Burn Area Soils-Area #1.....	C-154
C22-c. Summary Statistics for the Fire Station II Zone and Range Fire Burn Area Soils-Area #2.....	C-155
C22-d. Summary Statistics for the Fire Station II Zone and Range Fire Burn Area Soils-Area #3.....	C-156
C22-e. Summary Statistics for the Fire Station Soils-Area #4	C-173
C22-f. Fire Station II Zone and Range Fire Burn Area Exposure Point Concentrations Area #1 by Bin Depths.....	C-174
C22-g. Fire Station II Zone and Range Fire Burn Area Exposure Point Concentrations Area #2 by Bin Depths	C-174

C22-h. Fire Station II Zone and Range Fire Burn Area Exposure Point Concentrations Area #3 by Bin Depths.....	C-175
C22-i. Fire Station II Zone and Range Fire Burn Area Exposure Point Concentrations Area #4 by Bin Depths.....	C-175
C23-a. Soil Contaminant Screening Process for OU 10-04, MDA Soil (1997, 1999)	C-176
C23-b. Summary Statistics for the MDA Soils	C-177
C23-c. Summary Exposure Point Concentrations for the Mass Detonation Area by Bin Depth	C-178
C24-a. Screened Chemicals UXO East of TRA	C-179
C24-b. Summary Statistics for the UXO East of TRA soils.....	C-180
C24-c. UXO East of TRA Exposure Point Concentration Calculations by Bin Depths.....	C-181
C25-a. Screened Chemicals Rail Car Area	C-182
C25-b. Summary Statistics for the Rail Car Soils-Area #2	C-186
C25-c. Summary Statistics for the Rail Car Soils-Area #3.....	C-188
C25-d. Summary Statistics for the Rail Car Soils-Area #4	C-189
C25-e. Summary Statistics for the Rail Car Soils-Area #5.....	C-190
C25-f. Summary Statistics for the Rail Car Soils-Area #6.....	C-191
C25-g. Railcar Exposure Point Concentration Calculations Area #2 by Bin Depths.....	C-192
C25-h. Railcar Exposure Point Concentration Calculations Area #3 by Bin Depths	C-192
C25-i. Railcar Exposure Point Concentration Calculations Area #4 by Bin Depths.....	C-193
C25-j. Railcar Exposure Point Concentration Calculations Area #5 by Bin Depths.....	C-193
C25-k. Railcar Exposure Point Concentration Calculations Area #6 by Bin Depths	C-193
C26-a. Screened Chemicals Craters	C-194
C26-b. Summary Statistics for the Crater Soils	C-196
C26-c. Crater Exposure Point Concentration Calculations	C-198
C27-a. Screened Chemicals NODA	C-199
C27-b. Summary Statistics for the NODA Soils-Area #2	C-210
C27-c. Summary Statistics for the NODA Soils-Area #3	C-218

C27-d. Summary Statistics for the NODA Soils-Area #4	C-225
C27-e. NODA Exposure Point Concentration Calculations Area #2 by Bin Depths	C-235
C27-f. NODA Exposure Point Concentration Calculations Area #3 by Bin Depths.....	C-237
C27-g. NODA Exposure Point Concentration Calculations Area #4 by Bin Depths.....	C-237
C28-a. Soil Contaminant Screening Process for WAG 10, OU 10-04, STF-02 (Kickout-2000).....	C-239
C28-b. Soil Contaminant Screening Process for WAG 10, OU 10-04, STF-02 (Remainder-2000)	C-241
C28-c. Summary Statistics for the STF-02 Gun Range—Kickout Area—Analytes in Soil.....	C-242
C28-d. Summary Statistics for the STF-02 Gun Range—Remainder of Area—Analytes in Soil	C-244
C28-e. Summary Exposure Point Concentrations for STF-02 Kickout by Bin Depths.....	C-245
C28-f. Summary Exposure Point Concentrations for STF-02 Remainder by Bin Depths	C-245
C29-a. Soil Contaminant Screening Process for OU 10-07, Buried U.S. West Telecommunications Line.....	C-246
C29-b. Summary Statistics for the U.S. West Cable Soils	C-246
D-1. BRA human health assessment uncertainty factors	D-24
E1-1. Total risks by exposure pathway at each site/area for the future residential scenario	1
E1-2. Total risks by exposure pathway and group for the future residential scenario.....	1
E1-3. Total risk at each site/group for the future residential scenario.....	1
E1-4. Risk by ingestion of soil for the future residential scenario	1
E1-5. Risk by groundwater ingestion for the future residential scenario	4
E1-6. Risk by ingestion of homegrown produce for the future residential scenario	5
E1-7. Risk by inhalation of fugitive dust for the future residential scenario.....	8
E1-8. Risk by inhalation of volatiles from soil for the future residential scenario.....	9
E1-9. Risk by inhalation of volatiles from groundwater for the future residential scenario.....	10
E1-10. Risk by external radiation exposure for the future residential scenario.....	11
E1-11. Risk by dermal absorption of soil for the future residential scenario	11

E1-12. Risk by dermal absorption of groundwater for the future residential scenario.....	14
E1-13. Total hazard quotients by site for the future residential scenario	15
E1-14. Total hazard quotients by area for the future residential scenario	17
E1-15. Total hazard quotients at each site/group for the future residential scenario.....	18
E1-16. Hazard quotients by ingestion of soil for the future residential scenario.....	19
E1-17. Hazard quotients by groundwater ingestion for the future residential scenario.....	22
E1-18. Hazard quotients by ingestion of homegrown produce for the future residential scenario	23
E1-19. Hazard quotients by inhalation of fugitive dust for the future residential scenario	26
E1-20. Hazard quotients by inhalation of volatiles from soil for the future residential scenario	27
E1-21. Hazard quotients by inhalation of volatiles from groundwater for the future residential scenario	28
E1-22. Hazard quotients by dermal absorption of soil for the future residential scenario	29
E1-23. Hazard quotients by dermal absorption of groundwater for the future residential scenario.....	32
E1-27. Intake, ingestion of soil, noncarcinogen (mg/kg-day) for the future residential scenario	36
E1-28. Intake, ingestion of groundwater, carcinogens (mg/kg-day or pci/kg-day) for the future residential scenario	39
E1-29. Intake, ingestion of groundwater, noncarcinogens (mg/kg-day) for the future residential scenario	40
E1-30. Alpha, for volatilization factor (cm ² /s) for the future residential scenario.....	41
E1-31. Effective diffusivity (cm ² /s) for the future residential scenario	41
E1-32. Soil/air partition coefficient for volatile COPCs for the future residential scenario.....	41
E1-33. Volatilization factor for volatile COPCs (m ³ /kg) for the future residential scenario.....	41
E1-34. Area weighted average airborne volatile concentration (mg/m ³) for the future residential scenario.....	42
E1-35. Airborne contaminant concentrations, fugitive dust (mg/m ³ or pCi/m ³) for the future residential scenario	43
E1-36. Intake, fugitive dust, noncarcinogens (mg/kg-day) for the future residential scenario.....	44

E1-37. Intake, fugitive dust, carcinogens (mg/kg-day or pCi/kg-day) for the future residential scenario	45
E1-38. Intake, volatile inhalation, soil, carcinogenic (mg/kg-day) for the future residential scenario	46
E1-39. Intake, volatile inhalation, soil, noncarcinogenic (mg/kg-day) for the future residential scenario	46
E1-40. Intake, volatile inhalation, groundwater, carcinogenic (mg/kg-day) for the future residential scenario.....	46
E1-41. Intake, volatile inhalation, groundwater, noncarcinogenic, (mg/kg-day) for the future residential scenario	46
E1-42. Exposures due to external radiation, carcinogenic (pCi-yr/g), based on area weighted average soil concentrations (0–10 ft) for the future residential scenario	47
E1-43. Intake, dermal absorption of soil, carcinogenic (mg/kg-day) for the future residential scenario	47
E1-44. Intake, dermal absorption of soil, noncarcinogenic (mg/kg-day) for the future residential scenario	49
E1-45. Intake, dermal absorption of groundwater, carcinogenic for the future residential scenario	51
E1-46. Intake, dermal absorption of groundwater, noncarcinogenic for the future residential scenario	52
E1-47. Radioactive decay constants, lambda for the future residential scenario.....	53
E1-48. Leach rate constant for the future residential scenario	53
E1-49. Irrigation COPC input rate (mg/g-day or pCi/g-day) for the future residential scenario	54
E1-50. Average soil concentrations when irrigating with groundwater for the future residential scenario.....	55
E1-51. Average concentration of COPC in HGP from plant uptake (mg/kg or pCi/g) for the future residential scenario	58
E1-52. Intake, homegrown produce, carcinogenic (mg/kg-day or pCi/day) for the future residential scenario.....	61
E1-53. Intake, homegrown produce, noncarcinogenic (mg/kg-day or pCi/day) for the future residential scenario.....	64
E1-54. Original exposure point concentrations (mg/kg or pCi/g) for the future residential scenario	67

E1-55. Site/area dimensions for the future residential scenario	70
E1-56. Rad decayed exposure point concentrations by site, year 100 to 130 (pCi/g) for the future residential scenario	71
E1-57. Area weighted average of original exposure point concentrations (mg/kg or pCi/g) for the future residential scenario.....	72
E1-58. Soil radionuclide exposure point concentrations for home grown produce by site, decay corrected to year 100 (pCi/g) for the future residential scenario	73
E1-59. Groundwater concentrations by area (mg/L or pCi/L) for the future residential scenario	74
E1-60. Concentration of volatiles in air from indoor groundwater use (mg/m ³) for the future residential scenario	75
E1-61. Exposure parameters for the future residential scenario.....	76
E2-1. Total risks by exposure pathway at each site/area for the current worker scenario	E2-1
E2-2. Total risks by exposure pathway and group for the current worker scenario.....	E2-2
E2-3. Total risk at each site/group for the current worker scenario	E2-3
E2-4. Risk by ingestion of soil, carcinogens for the current worker scenario.....	E2-4
E2-5. Risk by inhalation of fugitive dust, carcinogens for the current worker scenario	E2-7
E2-6. Risk by inhalation of volatiles from soil, carcinogens for the current worker scenario.....	E2-8
E2-7. Risk by external radiation exposure, carcinogens for the current worker scenario	E2-9
E2-8. Risk by dermal absorption of soil, carcinogens for the current worker scenario	E2-10
E2-9. Total hazard quotients by exposure pathway at each site/area for the current worker scenario	E2-13
E2-10. Total hazard quotients by exposure pathway and group for the current worker scenario	E2-14
E2-11. Total hazard quotients at each site/group for the current worker scenario	E2-15
E2-12. Hazard quotients by ingestion of soil for the current worker scenario	E2-16
E2-13. Hazard quotients by inhalation of fugitive dust, non-carcinogens for the current worker scenario	E2-19
E2-14. Hazard quotients by inhalation of volatiles from soil, non-carcinogens for the current worker scenario.....	E2-20

E2-15. Hazard quotients by dermal absorption of soil, non-carcinogens for the current worker scenario	E2-21
E2-18. Intake, ingestion of surface soil (0–6 in.), carcinogen (mg/kg-day or pCi/kg-day) for the current worker scenario	E2-24
E2-19. Intake, ingestion of surface soil (0–6 in.), noncarcinogen (mg/kg-day) for the current worker scenario.....	E2-27
E2-20. Alpha, for volatilization factor (cm ² /s)	E2-30
E2-21. Effective diffusivity (cm ² /s).....	E2-30
E2-22. Soil/air partition coefficient for volatile COPCs.....	E2-30
E2-23. Volatilization factor for volatile COPCs (m ³ /kg).....	E2-30
E2-24. Area weighted average airborne volatile concentration (mg/m ³) based on 0–0.5ft soil depth	E2-30
E2-25. Airborne contaminant concentrations, fugitive dust (mg/m ³ or pCi/m ³), based on 0–0.5 ft depth for the current worker scenario	E2-31
E2-26. Intake, inhalation of fugitive dust, noncarcinogens (mg/kg-day) for the current worker scenario	E2-32
E2-27. Intake, inhalation of fugitive dust, carcinogens (mg/kg-day or pCi/kg-day) for the current worker scenario	E2-33
E2-28. Intake, volatile inhalation, soil, carcinogenic (mg/kg-day or pCi/kg-day) for the current worker scenario	E2-34
E2-29. Intake, volatile inhalation, soil, noncarcinogenic (mg/kg-day) for the current worker scenario	E2-34
E2-30. Exposure factor from external radiation, based on area weighted average soil concentrations, carcinogenic (pCi-yr/g) for the current worker scenario.....	E2-35
E2-31. Intake, dermal absorption of soil, carcinogenic (mg/kg-day) for the current worker scenario	E2-35
E2-32. Intake, dermal absorption of soil, noncarcinogenic (mg/kg-day) for the current worker scenario	E2-38
E2-33. 0–0.5 feet original exposure point concentrations (mg/kg or pCi/g) for the current worker scenario	E2-41

F-3. Summary of biological field survey for WAG 10.....	F-17
F-4. Summary of biological field survey for WAG 6.....	F-19
F-5. Habitat rating conventions for WAG 6 and 10 sites of concern	F-20
F-6. Summary of WAGs 6 &10 ERA results	F-23
F-7. Summary of WAGs 6 and 10 exposure media and ingestion routes for INEEL functional groups.....	F-34
F-8. Summary of assessment endpoints for WAGs 6 and 10 ERA (Suter et al. 1993)	F-38
F-9. WAGs 6 and 10 species parameters.....	F-41
F-10. Results of hazard quotient calculations for the WAGs 6 &10 ecological risk assessment	F-42
F-11 TRVs for Non-radionuclides (mg/kg-d).....	F-61
F-12. Summary of ERA HQs for BORAX-01	F-68
F-13. Summary of ERA HQs for BORAX-02.....	F-69
F-14. Summary of ERA HQs for BORAX-09.....	F-70
F-15. Summary of ERA HQs for the Fly Ash Pit.....	F-73
F-16. Summary of ERA HQs for LCCDA-01	F-74
F-17. Summary of ERA HQs for LCCDA-02	F-75
F-18. Summary of ERA HQs for CFA-633.....	F-77
F-19. Summary of ERA HQs for NODA Area 2.....	F-79
F-20. Summary of ERA HQs for NODA Area 3.....	F-84

F-21. Summary of ERA HQs for NODA Area 4.....	F-86
F-22. Summary of ERA HQs for NOAA Grid Area 1	F-88
F-23. Summary of ERA HQs for NOAA Grid Area 2	F-89
F-24. Summary of ERA HQs for NOAA Grid Area 2a.....	F-90
F-25. Summary of ERA HQs for NOAA Grid Area 3	F-91
F-26. Summary of ERA HQs for NOAA Grid Area 4	F-92
F-27. Summary of ERA HQs for NOAA Grid Area 5	F-92
F-28. Summary of ERA HQs for NOAA Grid Area 6	F-93
F-29. Summary of ERA HQs for the Fires Station II Zone and Range Fire Burn Area 1.....	F-95
F-30. Summary of ERA HQs for the Fires Station II Zone and Range Fire Burn Area 2.....	F-96
F-31. Summary of ERA HQs for the Fires Station II Zone and Range Fire Burn Area 3.....	F-97
F-32. Summary of ERA HQs for the Fires Station II Zone and Range Fire Burn Area 4.....	F-98
F-33. Summary of ERA HQs for the Experimental Field Station Area 1	F-100
F-34. Summary of ERA HQs for the Experimental Field Station Area 2	F-101
F-35. Summary of ERA HQs for the Unexploded Ordnance East of TRA	F-102
F-36. Summary of ERA HQs for Burn Ring South of Experimental Field Station.....	F-103
F-37. Summary of ERA HQs for the Rail Car Explosion Area 2.....	F-105
F-38. Summary of ERA HQs for the Rail Car Explosion Area 3.....	F-106
F-39. Summary of ERA HQs for the Rail Car Explosion Area 5.....	F-107
F-40. Summary of ERA HQs for the Rail Car Explosion Area 6.....	F-108
F-41. Summary of ERA HQs for the Land Mine and Fuze Burn Area 2	F-110
F-42. Summary of ERA HQs for the Land Mine and Fuze Burn Area 3	F-111
F-43. Summary of ERA HQs for the Craters East of INTEC.....	F-113
F-44. Summary of ERA HQs for the STF-02 Remainder Area.....	F-114
F-45. Summary of ERA HQs for the STF-02 Kickout Area	F-116
F-46. Source and effects of uncertainties in the ecological risk assessment	F-118

F-47. Summary of the sites with potential for posing risk to ecological receptors	F-119
F-48. Comparison of waste area group ecological risk assessment components for phases of the INEEL-wide ecological risk assessment	F-123
G-1. BORAX-01	G-2
G-2. BORAX-02 (2000).....	G-3
G-3. BORAX-09	G-4
G-4. Fly Ash Pit	G-5
G-5. LCCDA-01	G-6
G-6. LCCDA-02.....	G-7
G-7. OMRE-01 (Organic Moderated Reactor Experiment Leach Pond)	G-8
G-8. CFA-633 Naval Firing Site and Downrange Area	G-9
G-9. Naval Ordnance Disposal Area (Area #2).....	G-10
G-10. Naval Ordnance Disposal Area (Area #3).....	G-14
G-11. Naval Ordnance Disposal Area (Area #4).....	G-16
G-12. National Oceanic and Atmospheric Administration Grid (Area #1).....	G-17
G-13. National Oceanic and Atmospheric Administration Grid (Area #2).....	G-18
G-14. National Oceanic and Atmospheric Administration Grid (Area #2a).....	G-19
G-15. National Oceanic and Atmospheric Administration Grid (Area #3).....	G-20
G-16. National Oceanic and Atmospheric Administration Grid (Area #4).....	G-21
G-17. National Oceanic and Atmospheric Administration Grid (Area #5).....	G-22
G-18. National Oceanic and Atmospheric Administration Grid (Area #6).....	G-23
G-19. Fire Station II Zone and Range Fire Burn Area (Area #1).....	G-24
G-20. Fire Station II Zone and Range Fire Burn Area (Area #2).....	G-25
G-21. Fire Station II Zone and Range Fire Burn Area (Area #3).....	G-26
G-22. Fire Station II Zone and Range Fire Burn Area (Area #4).....	G-27
G-23. Mass Detonation Area.....	G-28
G-24. Experimental Field Station (Area #1)	G-29

G-25. Experimental Field Station (Area #2)	G-30
G-26. Unexploded Ordnance East of TRA.....	G-31
G-27. Burn Ring South of Experimental Field Station	G-32
G-28. Rail Car Explosion Area (Area #2)	G-34
G-29. Rail Car Explosion Area (Area #3)	G-35
G-30. Rail Car Explosion Area (Area #4)	G-36
G-31. Rail Car Explosion Area (Area #5)	G-37
G-32. Rail Car Explosion Area (Area #6)	G-38
G-33. Land Mine Fuze Burn Area (Area #2)	G-39
G-34. Land Mine Fuze Burn Area (Area #3)	G-40
G-35. Craters East of INTEC	G-41
G-36. STF-02 Remainder Area	G-42
G-37. STF-02 Kickout Area.....	G-43
H2-1. Evaluation and selection of COPCs summarized from the WAG ERAs for use in the OU 10-04 ERA (from Suter et al. 1995).	H2-3
H3-1a. Depth Intervals for 1997 Soil Samples for the OU 10-04 ERA.....	H3-2
H3-1b. Comparison of the 1997 ERA Soil Sampling Maximum Concentrations to the INEEL Background Data Set.	H3-4
H3-1c. Soil Contaminant Screening Process for the Reference Area - 1997 Soil Samples (0-2 ft).....	H3-7
H3-1d. Soil Contaminant Screening Process for the CPP Plume – 1997 Soil Samples (0-2 ft).....	H3-9
H3-1-e. Comparison of Total Hazard Indices for the INEEL Background, Reference Area, and CPP Plume (1997)-Functional Groups.....	H3-20
H3-1f. Comparison of Total Hazard Indices for the INEEL Background, Reference Area, and CPP Plume (1997)-Current Receptors.....	H3-22
H3-1g. Comparison of Total Hazard Indices for the INEEL Background, Reference Area (1997), and BORAX (2000)-Current Receptors.....	H3-23
J-1. Summary of OMRE FY 1999 Radionuclide Soil Sample Results in pCi/g.....	J-5
K1-1. Arsenic in igneous rocks.....	K1-1

K1-2.	Arsenic in sedimentary rocks.....	K1-1
K1-3.	Generic Soil Background Values for Arsenic (<i>Kabata-Pendias 1985</i>)	K1-2
K1-4.	Soil background levels for arsenic (Baldwin 1998).....	K1-3
K1-5.	The various soil background studies for arsenic	K1-6
K2-1.	Summary of Monte Carlo Lead in Soil Eco-PRG Results for Mammals and Birds	K2-8
K2-2.	Plant Lead Soil Eco-PRGs based on NOEC and EC ₂₅ Values.....	K2-8
K2-3.	Summary of Effects of Lead in Soil on Plants.....	K2-12
